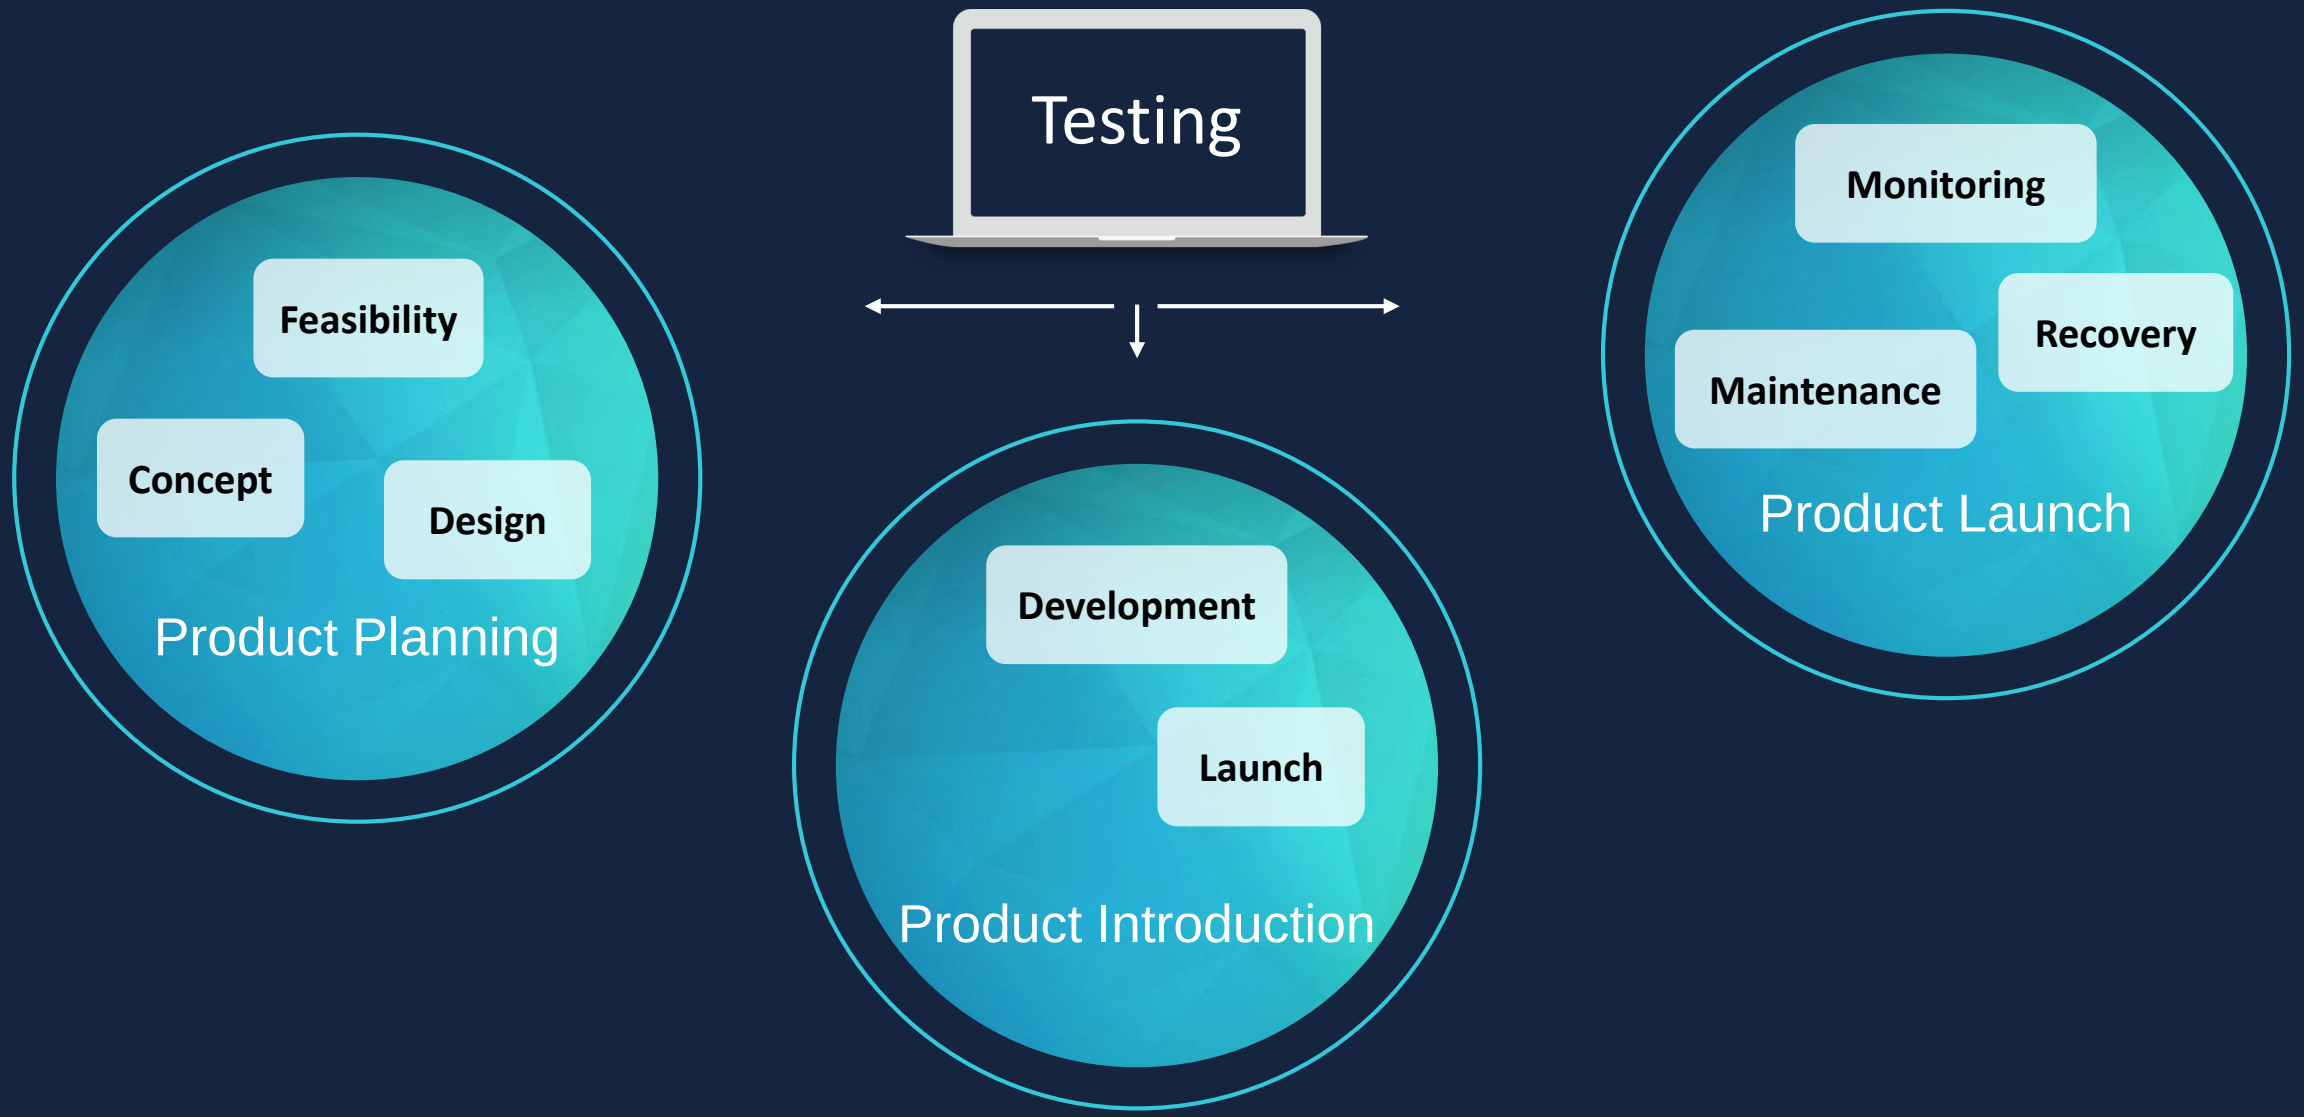
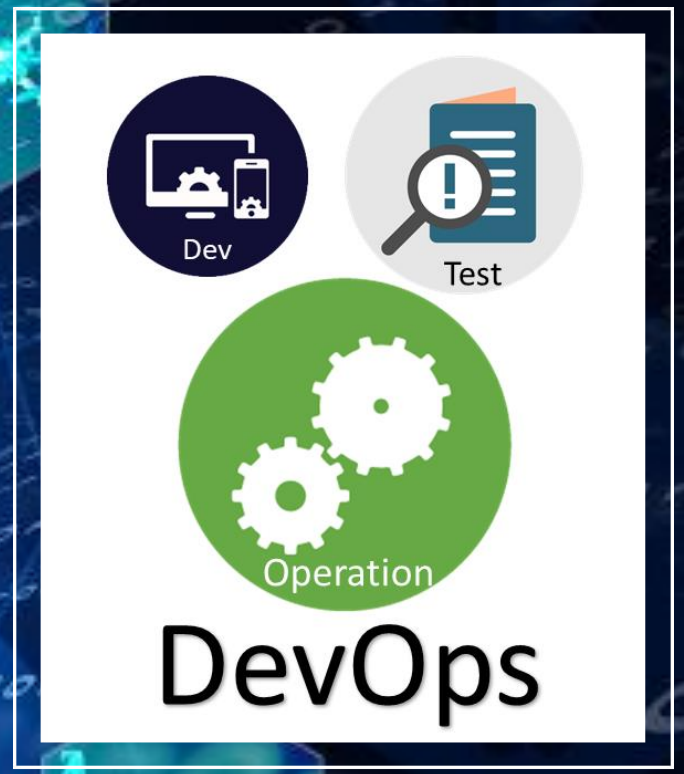
TestOnNeed - An Open Source Testing Ecosystem

An overview of TestOnNeed Solutions

by Muqeeth Khan

Product Development Life Cycle (PDLC)





TestOnNeed

- Get testing done when you need it

TestOnNeed Core Values

1. A belief, to get easy access to the platform that provides expert advice, test tools, and highly skilled test resources (i.e.) An Online ‘On Need’ Testing Platform

2. A belief, to provide an easy to use and a completely open source test solution by bridging multiple open source testing tools and community (i.e.) An Open Source Testing Ecosystem

3. A belief, to prepare an organization in the world of continuously changing technology by enabling end to end DevOps and TestOps practice (i.e.) A DevOps and TestOps Enabler
